

SKIN CONSULTATION

Our MSL nurses can tailor a treatment plan just for you and the consultation fee can be taken off the cost of any products or treatments you purchase on the day. This is a great option if you are unsure which treatments or products are best for you and would like to know more about how to care for your skin.

30 minute skin consultation \$50

COSMETIC INJECTABLES

Antiwrinkle injections are indicated for repetitive movement of facial muscles that cause fine line and wrinkle formation. Specific injection sites will be chosen to relax the movement of the muscle.

Antiwrinkle Injectables \$4.40 per unit
* final price on consultation

DERMAL FILLERS

Dermal fillers are indicated for those clients that are wanting to enhance their facial anatomy, restore volume loss, improve hollowing and deeper wrinkles. MSL will provide pricing for Dermal Fillers at time of consultation. There are a variety of factors to consider such as facial anatomy, symmetry, main concerns and desired outcome.
